

Teamwork and Work Habits – Activity 6

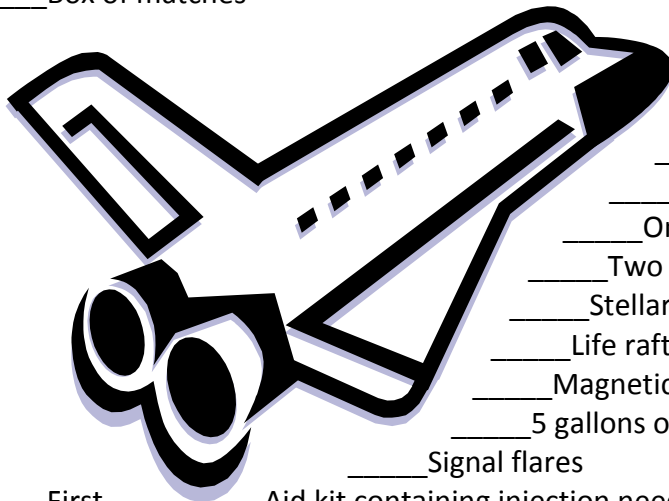

Lost on the Moon

You are in a space crew originally scheduled to rendezvous with a mother ship on the lighted side of the moon. Mechanical difficulties, however, have forced your ship to crash-land at a spot some 200 miles from the rendezvous point. The rough landing damaged much of the equipment aboard. Since survival depends on reaching the mother ship, the most critical items available must be chosen for the 200 mile trip. Below are listed 15 items left intact after the landing. Your task is to rank order them in terms of their importance to your crew in this attempt to reach the rendezvous point. Place number 1 by the most important item, number 2 by the second most important item, and so on, through number 15, the least important.
